

# Nothin' To You

Becky Buller, Goodnight Sparky Music, BMI

I opened my home to you  
I opened my heart  
Trusting that you would see  
What I saw all along  
How could I know that you  
Were just playin' a part  
Bidin' your time until you  
Heard a sweeter song

Whoever said there was shame  
In givin' it up  
If you aren't happy here  
You're better off on down the line  
But turnin' to walk away  
Just isn't enough  
You gotta burn down everyone  
You've left behind

Chorus:       When it's all said and done  
                  You're the only one that matters  
                  There ain't no gettin' through  
                  To you even though my heart's been  
                  Tattered, torn and bruised  
                  Cuz I mean nothin'  
                  Nothin' to you

As crazy as it sounds  
I don't want you to leave  
It's many a well-worn road  
We've been across  
I hope you've finally found  
Whatever you need  
But I'm sorry for you cuz you  
Don't know what you've lost

Chorus:       When it's all said and done  
                  You're the only one that matters  
                  There ain't no gettin' through  
                  To you even though my heart's been  
                  Tattered, torn and bruised  
                  Cuz I mean nothin'  
                  Nothin' to you
