

# Bitter Springs To Big Trees

Becky Buller, *Goodnight Sparky Music*, BMI

Up out of Egypt, through the Red Sea  
One step ahead of pharaoh's army  
Three days of travel, two million sons and daughters said  
What good is freedom without water

Chorus:       It's dry as a desert  
                  But I know there's a blessing further on  
                  I'm gonna try to keep on prayin'  
                  From Bitter Springs to Big Trees and beyond

At a place called Marah, hope began to sink  
'Cause nothin' there was fit to drink  
Moses and the people cried out and gnashed their teeth  
God showed them wood to make the water sweet

Chorus:       It's dry as a desert  
                  But I know there's a blessing further on  
                  I'm gonna try to keep on prayin'  
                  From Bitter Springs to Big Trees and beyond

He said, "If you will listen and heed what I reveal  
You'll know no sickness. I'm the God Who Heals."  
Then He led them to Elim, where they had all they could need  
Twelve wells, three score and ten palm trees

Chorus:       It's dry as a desert  
                  But I know there's a blessing further on  
                  I'm gonna try to keep on prayin'  
                  From Bitter Springs to Big Trees and beyond

Chorus:       It's dry as a desert  
                  But I know there's a blessing further on  
                  I'm gonna try to keep on prayin'  
                  From Bitter Springs to Big Trees and beyond
