

# She Loved Sunflowers

Becky Buller, *Goodnight Sparky Music, BMI*  
For the Brooks Family

We tried to spoil that girl  
She was our delight  
But somehow Baby Sister turned out all right  
She had the sweetest spirit  
Always laughin' eyes  
And a smile so bright it should come as no surprise...

Chorus:           That she loved sunflowers  
                    She loved sunflowers  
                    She loved the sunflowers that grew around our home

She left us  
So unexpectedly  
And, though our hearts were broken, I guess the good Lord had a need  
For another angel  
To tend His gardens there  
Sowing sunflowers as she offers Him her joyful prayers

Chorus:           Cuz she loved sunflowers  
                    She loved sunflowers  
                    She loved the sunflowers that grew around our home

Bridge:           Now I've gone so far from my family  
                    Chasin' crazy dreams I can't seem to shake  
                    Many's the time found me wondering  
                    If the whole thing might be a mistake

I didn't plant them there  
But I think I know who did  
And those sunflowers in my front yard are a precious gift  
They tell me I am loved  
I'm where I should be  
That God and my sister are smilin' down on me.

Chorus:           Cuz she loved sunflowers  
                    She loved sunflowers  
                    She loved the sunflowers that grew around our home

Chorus:           Cuz she loved sunflowers  
                    She loved sunflowers  
                    She loved the sunflowers that grew around our home
