

Why Don't You Just Say Good-bye

Becky Buller, Goodnight Sparky Music, BMI

There was a time when love was all we knew
But lately something different's come between me and you
I know that you've been tryin' with all your might
But instead of just pretending everything's all right

Chorus: Why don't you just say good-bye
 Stop holding to a dream that so long ago died
 It's time you face the truth and the feelin's you can't hide
 Why don't you just say good-bye

You ask me what's brought on the tears I'm cryin'
Well, I'm frightened by the distance that's grown in your eyes
And you've tried to fill that void up with your song
But words can be so empty when the heart is gone

Chorus: Why don't you just say good-bye
 Stop holding to a dream that so long ago died
 It's time you face the truth and the feelin's you can't hide
 Why don't you just say good-bye

You tell me that you love me but I know
The person that I held left me a long time ago
I think we should give up this masquerade
Quit runnin' from yourself and the mistakes of yesterday

Chorus: Why don't you just say good-bye
 Stop holding to a dream that so long ago died
 It's time you face the truth and the feelin's you can't hide
 Why don't you just say good-bye
