Just a greeting card in a purple frame

Swore it had my name

Written on the inside

I whispered a tearful prayer

Grateful God had met me there

To comfort and remind
That though we long to rewrite history
We only have power in the present tense
Better learn from our mistakes
Not take them up around the bend....He said...

Chorus: Don't look back
Don't look back
The road you're travelin' is a one-way track
Gotta look to the future
Cuz you can't change the past
Make the most of what you're livin' and
Don't look back

Bridge over 2nd half of verse melody:

Gonna hang that picture by my front door
And ev'ry mornin' just before I leave
It'll say there's a new day
Waitin' out there for me...so...

(Key change to A)
