

Head On Down The Line

Becky Buller & Christopher Mosselman, Goodnight Sparky Music, BMI

Got a brand-new pair of laces
In my travelin' shoes
Got an achin' in my heart
To outrun the blues
These heartaches
And, hopefully, you

Nothin' good comes easy
I know that's a fact
It's been hard luck and trouble
Since I took you back
A mistake I plan to make
Part of my past

Chorus 1: Engine whine
Keepin' time
To the rhythm of the wheels
As I head on down the line

You've been holdin' all the matches
But now the table's turned
Better watch out where you're walkin'
'Cause this bridge is gonna burn
From the ashes
Think I've fin'lly learned

That love is not the poison
You make it out to be
I'm off to find somebody
Who won't be the death of me
It's adios, Dankeschön
And ce'st la vie

Chorus 2: Read the signs
And I'm inclined
To look for a better deal
As I head on down the line

Chorus 3: Did my time
A too long time
And I've missed the way it feels
To head on down the line

Chorus 4: Did my time
A too long time
And I love the way it feels
To head on down the line
