

# We Let Each Other Go

Becky Buller, *Goodnight Sparky Music*, BMI

The words were bitter and few  
But the tears filled in what was left  
What else were we suppose to do  
You didn't love me enough for forever...so...

Chorus 1: We let each other go  
To let each other live and love again  
Though how I don't know  
We let each other go

You call to see how I am  
And I appreciate your concern  
I'll be fine as soon as I can  
Extinguish a flame the still burns...though...

Chorus 1: We let each other go  
To let each other live and love again  
Though how I don't know  
We let each other go

Bridge: All I needed was distance and time  
The further I get away the more I see we chose what was right

You say you miss what we had  
You drag me down with your eyes  
I'm sorry you're broken and sad  
But our hearts couldn't compromise...that's why...

Chorus 2: We let each other go  
To let each other live and love again  
I guess now I know  
Why we let each other go

Chorus 1: We let each other go  
To let each other live and love again  
Though how I don't know  
We let each other go
