Chorus 1: I need a year of jubilee
 With no one pulling back on me
 Wish my mind would let me be
 I need a year of jubilee

I found my honey on a July night
Under a pink carnation moon
I poured my love into a glass
and he drank it with a silver spoon
time rolled on the babies came
We were happy as we could be
But something was lost
Something I couldn't see
I need a year of jubilee

Chorus 2: I want a life of letting go
 To escape the undertow
 For a easy ebb and flow
 I want a life of letting go

A dusty sunbeam shivers
In our January room
Filled with resolutions
Empty liquor box strewn
You take my hand, our youngest laughs and grabs my legs
We slow dance without a tune
The city screams
But it can't reach me
Listening for my jubilee

Bridge: We're goin to the country
 Maybe I will find it there
 If I keep my heart open
 Jubilee will fill the air

Chorus 3: When there's a feast in front of me
 I can't drink and I can't eat
 I look beyond what I can see
 There's my jubilee
